HISTORY

The educational institution at Buckhannon, maintained by the West Virginia Conference of the Methodist Episcopal Church, is one of the finest educational institutions of our state. The Methodist Church has always been a great friend to education, especially in its more popular forms. The Methodist Episcopal Church alone is at present conducting 166 schools with about 3000 teachers and 47,000 students of all grades.

In Western Virginia many years ago the Methodists supported an academy at Clarksburg. The unhappy misunderstanding and division of 1844 proved fatal to this school, and for over forty years the Methodists of the state were without a school of their own. After the Civil War was over and the new state firmly established American Methodism celebrated its centennial in 1866. At this time much work for education was done in the country and West Virginia Methodists began the effort for a school which never entirely ceased until after years of waiting it was rewarded with great success.

In 1876 Buckhannon presented to a committee of the West Virginia Conference a subscription of $6,750 for the location of a seminary in the town, but the Conference did not accept the offer then. In 1883 the Conference appointed a committee on the centennial observance of the formal organization in 1784 of the Methodist Episcopal Church. This committee recommended the establishment of a seminary as an important object for the gifts of the people. In 1884 the conference was held at Buckhannon, and it appointed a Board of Trustees for the proposed

seminary. This consisted of A. J. Lyda, chairman; L. L. Stewart, secretary; D. H. K. Dix, treasurer; T. B. Hughes and Samuel Steele.

This board received contributions during the year and in 1885 the conference elected a board of eight ministers and eight laymen whose duty it was to receive proposals for the erection and endowment of a seminary, the conference to decide where it should be located. The ministers were A. J. Lyda, L. H. Jordan, J. A. Fullerton, Samuel Steele, E. H. Orwen, L. L. Stewart, H. J. Boatman and A. B. Rohrbough. The laymen were H. C. McWhorter, H. K. List, J. C. McGrew, A. M. Poundstone, B. F. Martin, Samuel Woods, Henry Logan and Nathan Goff. In 1886 death removed Dr. Samuel Steels and Hon. Nathan Goff. Rev. J. W. Reger, D. D., was chosen in place of Dr. Steele, and his name is very closely connected with the whole history of the seminary. In place of Mr. Goff, John A. Barnes was chosen, and he is still on the board.

Various places in the state were desirous of securing the location of the seminary with them. Parkersburg and Elizabeth may be mentioned among these. On July 13, 1887, the trustees met at Philipi, to decide upon the place and the vote was in favor of Buckhannon. Two days later the trustees proceeded to Buckhannon to select a site, but did not succeed. On August 29 they met again and purchased a tract of a little over forty-three acres for $5,551.87. In October, 1887, the conference met at Parkersburg and these proceedings were ratified. The trustees were also directed to proceed with the erection of buildings. The main building was finally completed during the summer of 1890, and on September 3 of that year the school was opened. A month later, the conference, which was in session at Weston, came in a body

to Buckhannon, and the building was dedicated by Bishop Cyrus D. Fouss. From the opening to the present the school has moved forward in a career of unbroken prosperity.

The first president of the institution was Rev. B. W. Hutchinson, A. M., D. D. Mr. Hutchinson was a native of Pennsylvania. He graduated at Ohio Wesleyan University and then entered the ministry. Later he went north and graduated at the Theological School of Boston University, and from there went into the New England Southern Conference. While a pastor in Providence, R. I., he was chosen president of the new institution. Dr. Hutchinson was a man of scholarly instincts, high standards and excellent business qualities, and the success of the school in its earlier years is due to his energy and wisdom. Early in 1898 he resigned to accept a similar position at Lima, N. Y.

President Hutchinson began with a faculty of three teachers besides himself. During the first year three more were added. There were seventy pupils enrolled during the first term. During the year 201 different students received instruction. Since then every year has had a larger enrollment and the teachers have grown tired of the monotonous announcement three times a year, "The enrollment for the present term is larger than for the corresponding term in any previous year." The enrollment for the current year (1903-4) will reach 550.

The work of the school has been continually increasing. At first it was confined to common English branches and the elementary classics pursued in preparation for college. Then a musical department was added and a department of art followed. In the spring term of the first year a business department was added and all these varieties of work have been constantly maintained.

The tendency has been to raise the standard for admission and constantly add studies of higher and higher grades. The school was chartered with full powers but not till June, 1903, did the Board of Trustees raise the courses to full college grade. The standard is that prescribed by the University Senate of the Methodist Episcopal Church.

In 1891 five persons, one man and four women, received diplomas as the first graduating class. The first male graduate was William B. Cutright, now a lawyer in Buckhannon. The class of 1904 will number 46. There have been in all 337 graduates from the various courses. Nineteen hundred and five will see the first graduates in regular college work.

In 1895 the state legislature passed a law which authorized the State Board of examiners to grant teachers certificates to graduates of the Seminary. This to some extent makes it a State Normal School, but there is no connection with the state government except by this recognition of its work. It has sent out a large number of teachers to the public schools of the state, besides those who are teaching in private schools in other states. In the Seminary diplomas are given in the Classical, Scientific, Literary, Normal, Musical and Engineering courses. Besides these, diplomas are given to the graduates of the Business College whenever they complete their work, though such students are not now counted as Seminary graduates. An enlarged Business Course, leading to the regular seminary diploma, is in contemplation. In the University the usual degrees are conferred.

Like most schools in this section of the country the institution is co-educational. Ladies and gentlemen are admitted on terms of perfect equality and work together in the classes without any unpleasant results. A reason-

able amount of very pleasant romance has grown out of this fact, and thus far the history of the school is free from any tale of scandal. It is hoped and expected that it will always continue.

The moral and religious tone of the school has always been high. While it was established and is controlled by one religious denomination it has never been sectarian. Several different churches have been represnted in its faculty, and its students have been from a great variety of denominations. Even Jewish pupils have been received and treated with perfect courtesy in the work of the school. No institution could be more free from religious bigotry, and the clergymen of all the Buckhannon churches are in most pleasant relations with the school. The students themselves choose which church they will attend in the town and on any Sunday in term time students can be found in every local congregation.

The town of Buckhannon has a deservedly high reputation for intelligence and morality. For years past Upshur County has refused to allow the sale of liquor and Buckhannon has never in its history had a liquor saloon. Of course, the sale of liquor is like theft and murder and all other crimes in that it cannot be absolutely excluded from any community of any large size, but in Buckhannon the prohibitory law is well enforced and the temptation to drink is hardly ever presented to the students. The town has good society and the students associate much with the well-bred and kind-hearted citizens in their homes.

The buildings are on a hill rising with a gentle slope in the south-east part of the town. They consist at present of the Main Building, the Ladies' Hall, Conservatory of Music and the President's residence. The first is an imposing edifice built of brick. It contains the neces-

sary offices, many recitation rooms, two halls for literary societies, and a chapel which will seat 800 people. The Seminary began with this one building and its students found homes as they could, among the families in town. This proved more and more inconvenient for the lady students as their numbers increased. In 1893 the project of a Ladies' Hall was adopted and in September, 1895, the finished building was ready for occupancy. It is built of brick, and is so planned as to allow of the building on of a wing which will greatly increase its capacity. It contains parlors, a convenient kitchen and dining room, and rooms for 80 young ladies. It is supplied with modern conveniences and is a healthful and pleasant home for its inmates. When President Hutchinson took charge of the school he built a residence for himself some rods to the eastward of the Seminary building. This house was afterwards purchased from him by the trustees and has since been steadily used as the President's home. The spacious Music Hall constructed of brick and stone, was added in 1902.

The Library of the school consists of some 5000 volumes. These books are chiefly the donations of friends. In 1901, through the influence of Miss Adelaide R. Tompkins, of Pittston, Pa., the reading room was refurnished and a goodly number of volumes added to the Library.

The Presidents of the Institution since the retirement of Dr. Hutchinson in February, 1898, have been Rev. S. L. Boyers, elected in June, 1898, and Dr. John Wier, the present incumbent, elected in June, 1900. During the interim between the incumbency of Drs. Hutchinson and Boyers, Prof. Frank B. Trotter was Acting President. Through all these administrations the school continued its marked success.

The school has been without endowment till 1902.

In 1901, Dr. D. K. Pearsons, of Chicago, offered $25,000 if this would be increased to $100,000. The Trustees accepted the offer; and a campaign covering a year, planned and conducted by President Wier resulted in success. The largest individual subscription given under the offer was $2,500, the gift of John D. Archbold, of New York. Some three years previously, on the Twentieth Century Call, H. K. List, Esq., of Wheeling, donated $2,500 to the school. But the largest individual giver to the institution next to Dr. Pearsons, was the Rev. J. A. Williams, of the West Virginia Conference, who, in 1894, gave $3,000 towards the new Ladies' Hall. Including the endowment the material worth of the institution is in the vicinity of a quarter of a million dollars.

The more thoughtful see a great danger in the rapid material development of our state. Unless corresponding progress can be made in the intellectual, moral and religious development of our people, the rapid increase of wealth will only bring coarseness, vulgarity and crime. True patriotism will strive for a symmetrical development which before many years may place our Mountain State among the foremost of the Union. To help a noble, Christian school of the highest moral influence, but free from all sectarian bigotry, is a very practical way of doing such work.

DESIGN AND SCOPE OF THE UNIVERSITY

The design and scope of the University is to furnish to students of both sexes opportunities for a thorough education under Christian influences. It will be the aim of the institution not simply to produce scholars, but to *develop character*, to promote Christian culture and the truest refinement of thought and conduct. The various departments of instruction furnish to all classes of students the best

advantages. *The institution has full college and university powers.*

RELIGIOUS LIFE

The institution is under the patronage and control of the West Virginia Conference of the Methodist Episcopal Church, and is positively Christian, though in *no sense sectarian.* Ten denominations, including Catholics, have been represented among the students. Students attend daily chapel exercises, and on the Sabbath the students are required to attend the churches of their respective denominations in town. The Bible is accorded a prominent place in the work of the school. Every Sunday afternoon a religious meeting for the students, conducted by the Christian Associations, is held in the Chapel. This has proved to be a very helpful and attractive service. There are other meetings, which bring together the Christian students in consultation and prayer for their unconverted companions. A revival spirit pervades the school. Almost without exception our students are helped in their moral and religious life by their attendance at the College. Among the students are many preparing for the Christian ministry. Students for the Christian ministry have formed a club for mutual improvement and instruction. The Y. M. C. A. and Y. W. C. A. are well organized and very active. There are several strong Circles of King's Daughters.

THE SEMINARY

COURSES OF STUDY

In the Seminary the following regular courses are offered: Classical, Scientific, Literary, Normal, Engineering, and Commercial-Science.

At present each course covers five years, two years being preparatory work, but may be finished in much less time, according to the advancement on entering. Students in all the courses are permitted to take work in the Music, Art or Elocution Department, and a large number, particularly of the young ladies, do this.

I. THE CLASSICAL COURSE

In this course, Latin, Greek, and English are the principal studies. Due attention is given to Mathematics, History and Natural Science. This has been considered the strongest course in our best schools and colleges from time immemorial. It is especially popular at the Seminary. No other course so thoroughly prepares the student for the various professions and callings in life as this one.

II. THE SCIENTIFIC COURSE

In the first year the scientific course is exactly like the classical, and throughout contains the same Latin, Mathematics, and English; but in the second, third, and extra years the sciences take the place of the Greek. The work in science is a thorough preparation for the same

line of work in college, and yet sufficiently complete in itself for any who may not have the opportunity to take a college course. This department is better equipped with apparatus, physical and chemical, for teaching and illustrating the natural sciences by experiment than ever before. Students may select German and French in this course.

III. THE LITERARY OR MODERN LANGUAGE COURSE

In this course at least three years of Latin and two of either German or French are required. History, Science, and Literature receive careful attention. This course is much the same as that usually pursued in ladies' seminaries, and with its range of electives will prove very attractive.

The course in French and German includes two years in each language, and is intended to be equivalent in disciplinary value to the same amount of Latin or Greek.

IV. THE NORMAL COURSE

The design of this course is to prepare our young people for public-school teaching. Besides a comprehensive study of the common branches, School Management, Pedagogy, and History of Education, considerable work is done in English, Mathematics, Natural Sciences, and Latin, and while the teacher is taking this course, he can select such other branches in other courses as he chooses without extra expense. Because of this, and the fact that we have a large patronage, we can secure most excellent results.

State certificates are granted to our Normal graduates on the same conditions as to the graduates of State Normal Schools and the University.

RESIDENCE OF THE PRESIDENT

V. THE ENGINEERING COURSE

This course is comprehensive, and designed to meet the demands of the extraordinary development within the State. It is in charge of instructors of wide practical experience.

VI. TEACHERS' EXAMINATION

Special classes are conducted during the Spring term each year for the benefit of teachers who desire to prepare for county examinations.

DEPARTMENTS OF STUDY

I. LATIN LANGUAGE

The regular course in Latin extends through three years, with a fourth year's work optional. During the first year special attention is devoted to etymological forms and to Latin composition; also about thirty chapters of Caesar are read. During the second year four books of Caesar and four orations of Cicero (*In Catilinam*) are read; the third year, Cicero's Pro Roscio, Pro Archia, and De Imperio Gnaei Pompei, and the first six books of Virgil's Aeneid. Much attention is given throughout the course to translating English into Latin.

II GREEK LANGUAGE

The regular work in Greek covers two years, with a third year optional. The first year is given to the mastery of paradigms, Syntax, Composition, and the reading of selections from Xenophon's Anabasis. The second year is given to the further reading of the Anabasis, two terms; Homer's Iliad, one term, and additional practice in Composition.

III. GERMAN LANGUAGE

The course in German extends through two years, and is intended to be equivalent in disciplinary value to the same amount of Latin and Greek.

The first year is devoted to a careful study of Grammar and to the translation of easy selections. The second, to writing the language and to reading standard works. The first German class complete Cook's Otto's Elementary German Books, Joynes Messner's Grammar, Heath's

Studien und Plauderein (first series), Immensee, Der Neffe als Onkel, Die Journalisten, and Die Jungfrau von Orleans. The second class complete Cook's Otto's Grammar and Studien und Plaudereien (second series), Hoeher als die Kirche, William Tell, Marie Stuart, Minna Von Barnhelm, and complete Harris's Composition.

IV. FRENCH LANGUAGE

The course in French also extends through two years, and is intended to be equivalent in disciplinary value to the same amount of Latin or Greek.

The first year is devoted to a careful study of Grammar and to the translation of easy prose selections. The second, to writing the language and to reading standard works. The first French class this year completed Whitney's French Grammar, Mairet's La Tâche du Petit Pierrs, Cherbuliez's Le Roi Apepi and Dumas' La Tulipe Noire. The second class read About's Le Roi des Montanges, George Sand's Nanon, Racine's Esther, De Vigny's La Canne de Jone, Hugo's Les Travailleurs De La Mer, and completed Grandgent's Composition.

V. SPANISH LANGUAGE

The course in Spanish extends through two years. A knowledge of Latin and French is of advantage in the study of this language.

The first year is devoted to a careful study of the Grammar, to composition, easy conversation and translation. The second, to writing, conversation, and translation of the standard works. The first Spanish class this year completed Loiseaux' Spanish Grammar, Ramsey's Elementary Spanish Reader, Galdos' Marianela, and Fontaine's Doce Cuentos' Escoyidos.

VI. ENGLISH LANGUAGE

Special attention is given in all the courses to the study of English. Grammar, Rhetoric, and Literature are given a most prominent place in the curriculum. Much attention is given to writing, and in all departments regular composition work is required, and no substitution is allowed for any of the English outlined in the regular courses.

In the preparatory course grammar is required throughout the two years. This is intended to prepare the student for the work in the regular courses, as follows:

The First Year the text-books are Lockwood's English and Newcomer's Elements of Composition, with reading required sufficient to illustrate the principles taught. Weekly exercises in composition are required, besides a large amount of work in preparing abstracts, criticisms, etc. The students in this year are required to read the following books: Franklin's Autobiography, one of Hawthorne's novels, Longfellow's Kavanagh, Holland's Seven Oaks, Eggleston's Hoosier Schoolmaster, Hale's The Man Without a Country.

The Second Year the text-books are Abbott's How to Write Clearly, winter term, and Painter's American Literature, spring term. This work extends through two terms; besides this, the pupils of the second year meet once a week throughout the year for work in composition and essay writing.

Required Reading in American Literature is as follows: Irving's Sketch Book; Bryant's Forest Hymn and To a Waterfowl; any two of Emerson's essays; Whittier's Snow-Bound; Longfellow's Hiawatha and The Building of the Ship; any one of Holmes's prose works; Lowell's Harvard Commemoration Ode, The Changeling, and The First Snow-fall; Holland's Bitter Sweet; Helen Hunt

Jackson's Ramona; any one of Cooper's Leatherstocking Tales; Mitchell's Reveries of a Bachelor; Wallace's Ben Hur.

Careful Study for Class Work.—Irving's Rip Van Winkle; Whittier's Songs of Labor; Lowell's Vision of Sir Launfal; Longfellow's Evangeline.

The Third Year the text-books are J. M. Hart's Hand-book of English Composition (one term), and Painter's Introduction to English Literature (two terms). During the term devoted to Rhetoric, constant practice is required in composition, and masterpieces are studied to illustrate the principles taught. The purpose of the terms devoted to Literature is to give the student a survey of the field and a slight acquaintance with the representative authors of each period. Besides composition work, the requirement is as follows:

Required Reading.—Milton's Lycidas; Hymn of the Nativity; Comus, and two books of Paradise Lost; Dryden's Alexander's Feast; Pope's Essay on Man and Rape of the Lock; any two essays from Dr. Johnson's Lives of the Poets; any two of Scott's novels, not read before; any two of Scott's poetical works, not read before; any two of Dickens's novels, not read before; any two of Shakespeare's plays, not read before; Goldsmith's Vicar of Wakefield; any two of Addison's essays; one of Swift's essays; Burns's Tam O'Shanter, To Mary in Heaven, Man Was Made to Mourn; Moore's Lalla Rookh; Wordsworth's Lucy Gray, Happy Warrior, and Ode to Duty; Coleridge's Rhyme of the Ancient Mariner, Cowper's Diverting History of John Gilpin, On Receipt of My Mother's Picture; Mrs. Browning's Aurora Leigh; Browning's Saul, Abt Vogler, Evelyn Hope, The Last Ride Together, and How They Brought the Good News from Ghent to Aix; Shelley's Ode to the Clouds; Keat's Eve of St. Agnes; one of

Lamb's essays; one of Ruskin's essays; seven chapters of Carlye's Sartor Resartus; Macaulay's essay on Milton; two cantos of Byron's Childe Harold; four of Tennyson's Idylls of the King, Enoch Arden, Lockley Hall and Maude.

Careful Study for Class Work.—Chaucer's Prologue; two cantos of first book of Spencer's Faerie Queene; Bacon's essays; Shakespeare's Merchant of Venice; Milton's L'Allegro and Il Pensero; Dryden's Religio Laici; Addison's Roger de Coverley papers; Pope's essay on Criticism; Burn's Cotter's Saturday Night; Goldsmith's Deserted Village; Byron's Prisoner of Chillon; Wordsworth's Tintern Abbey and Imitations of Immortality; Tennyson's Elaine.

VII. MATHEMATHICS

The required work in this department includes those branches which are thought to be the most essential to the student's development and needs. The work covers Third Arithmetic, one year; Higher Arithmetic, one year; Elementary Algebra, two terms; Higher Algebra, two terms; Geometry, one year.

VIII. NATURAL SCIENCES

The work in this department consists of Physical Geography, Physics, Chemistry, Geology, Botany, Astronomy, and Zoology. Of the sciences, Physics, Physical Geography and Botany are required in all the courses; in some of the courses liberal substitution is allowed for others. The University is adding new apparatus to this department every year.

LADIES' HALL

THE PREPARATORY DEPARTMENT

COURSES OF STUDY

THE PREPARATORY COURSE

The Preparatory Course covers two years' work, and provides thorough instruction in the English branches for students not qualified to enter the regular course of study. (See outline below.) Students under fourteen years are not permitted to enter. A boy or girl should have some knowledge of Grammar and a good start in Third Arithmetic before entering.

We do not advise parents to send boys or girls who are very young, unless they are exceptionally reliable and studious.

SPECIAL
SPRING TERM ANNOUNCEMENT

In addition to the Regular Normal Courses, as given in the preceding pages, special provision is made for teachers and others who can attend only during the spring term.

Those entering for this term will find classes in Harvey's and Reed & Kellogg's Grammar, Rhetoric and Composition, Third and Higher Arithmetic, Intermediate and Physical Geography, United States and General History, Physiology, Elementary and Higher Algebra, Beginning Latin, etc.; besides these elementary classes, all the advanced classes are open to pupils prepared to enter them.

THE COLLEGE

COURSES OF STUDY

In the following arrangement the word "Course" means a study five times a week for one term. A study five times a week through a year makes three courses.

The Seminary Courses as printed in the catalogue at the present time satisfy the University Senate's requirements and leave ten over to be counted as college *work*. In addition to this, thirty-eight courses, partly required and partly elective, shall constitute the work for the various degrees as follows:

A. B., FOLLOWING SEMINARY CLASSICAL COURSE

B. S., FOLLOWING SEMINARY SCIENTIFIC COURSE

Same as A. B., except 3 courses in Science instead of 3 in Greek, viz: 1 Astronomy, advanced, 1 Chemistry, advanced, 1 Physics, advanced.

B. L., FOLLOWING SEMINARY LITERARY COURSE

Same as A. B., except additional Modern Languages instead of Greek.

The six elective courses for each degree shall be chosen from the following:

6 English.	3 Mathematics.
6 Latin.	1 Chemistry, adv'ced.
6 Greek.	1 Botany, advanced.
3 German.	1 Zoology, Advanced.
3 French.	1 Geology, advanced.
3 Spanish.	

In consideration of the different courses and the electives offered in each, this arrangement gives a student an elective of about twenty-one courses in his entire college work.

The Required Courses will be arranged according to terms as follows:

CONSERVATORY OF MUSIC

Rev. John Wier, A. M., D. D. President.

INSTRUCTORS

J. J. Jelley, *Director.*

Miss Ethel Barnhill. Miss Bessie L. Whiting.
Mrs J. J. Jelley. Miss Julia T. Wilson.

The Conservatory of Music of The Wesleyan University of West Virginia presents its claims to the public with considerations that should be carefully studied by those contemplating a musical course.

Nearly all conservatories are founded in connection with institutions of learning, the wisdom of which is apparent, because a conservatory thus founded can give a broader and more thorough course in music, and can offer to the student the opportunity of taking work in other departments of study.

The University, being under religious influences, and governed by religious principles, affords security and gives strength to the student in moral and religious training.

Branches Taught.—Piano-forte, Cabinet and Pipe Organ, Voice Culture, Harmony, Theory, Composition, Counterpoint, Fugue, Composition, Musical History, Violin, and other orchestral instruments.

PIANO-FORTE AND PIPE ORGAN

All students are required to pursue the most thorough modern system of technical training practicable, special attention being given to hand formation, the cultivation of touch, interpretation, and correct musical taste. Be-

ginners in Piano and those not far advanced are especially welcome, as they possess few or none of the erroneous ideas and bad habits which are so easily formed by incorrect teaching or by careless practice, and which prove, in many cases, almost insurmountable obstacles to high cultivation. They therefore receive more rapidly the correct fundamental principles, and can, as a rule, make steady and rapid progress, uninterrupted by the tedious process of unlearning bad habits.

VOICE CULTURE

Cultivation of the voice in singing is now regarded as an important branch of education. Like many other natural powers, it is given to us in a crude state, and we are obliged to develop it through the means that art has revealed to us. This development, necessarily slow, must be managed by a faithful and conscientious instructor, that natural beauty and power may be re-enforced by a clear and concise intellectual and emotional conception of the study in hand.

Probably no other branch in musical culture has been so neglected as that which relates to the development of the voice. There is no branch of the art that affords the people at large more satisfactory enjoyment than refined and cultivated singing. It teaches the use of the respiratory organs in a correct manner.

Instruction in this department includes the study of the union of the registers, study of the correct formation of the vowels, and the proper use of the consonants, study of the solfeggio and the application of words, exercises for obtaining flexibility of the voice through proper exercises in scales—major, minor, and chromatic—study of embellishments suitable to the different kinds of songs, study of English, Italian, and German songs, the develop-

ment of the voice to suit the parlor, church, and public hall.

VIOLIN

As no other instrument is so capacious or diversified in its character, and as none other is so dependent in every particular on the conception of its manipulator as the violin, it will be at once apprehended that thorough and careful training is necessary to produce a good violinist. The fact is that correct teaching is indispensable; for there never was a self-taught violinist. Many imagine they can glean from so-called self-instructors all that is necessary to become a passable player, but find, when it is often too late, that they have only made themselves a source of annoyance to their friends, besides being constantly harassed by a feeling of inferiority when in the presence of musicians, and, what is still worse, they find that they have acquired bad habits, which, if they did wish to correct them, could never be (if of long standing) entirely overcome.

HARMONY

No one can claim rank as a musician without a knowledge and understanding of the principles laid down in this branch of study. One is enabled to analyze and interpret from the most simple to the highest forms of composition. The following may be considered as an outline of the work in this department: First term—Notation, keys, scales, intervals, formation of the common chord and its constructions; simple part writing; inversions of the common chord introduced. Second term—Inversion of the common chord continued, also the chord of the seventh with its inversions, with additional exercises in harmonizing bases. Third term—Additional exercises; as in second term; harmonizing easy melodies introduced; modulation introduced. Fourth term—Study of modu-

CONSERVATORY OF MUSIC

lation, with additional exercises, as in previous term; also the study of suspension and retardations. Fifth term—Exercises as in previous terms, also in open harmony and harmonizing melodies. Sixth term—Exercises in harmonic composition, with additional exercises. Elements of Harmony, by Stephen A. Emery, with practical exercises.

WHEN TO ENTER

Students can enter at any time. It is preferable to have all students enter at the beginning of each term, and not necessitate an interruption by later admissions or the formation of similar classes.

NOTATION AND SIGHT-READING CLASS

Few of the thousands who are studying music are able to read even a plain hymn tune correctly at sight. As a matter of economy to the student in music, this should be the first class sought, in order to acquaint himself with the signs and characters employed in written music, and, above all, to study the subject of tonality, thus enabling him to hear tonal effect without being obliged to have the selection played. This class meets twice each week.

ENGLISH

The requirements in English for graduation in the Department of Music are the same as in the regular Literary Courses.

THE COURSE

The students who are regular members of the Conservatory are eligible to membership without extra compensation. To literary students and residents of Buckhannon a fee of one dollar will be charged. The course of study will comprise English glees and part songs. Oratorio and secular adapted to the ability of the chorus.

REHEARSALS

Rehearsals will be held every two weeks. Pupils are expected to perform such pieces as may be selected by their respective teachers. These performances are designed to inspire confidence in public appearance, and to stimulate students to a greater degree of activity in practice and study.

THE CONSERVATORY CIRCULATING LIBRARY OF MUSIC

To facilitate the work of the Department of Music, there has been added to its advantages a library of music which embraces all the technical studies for the piano, progressive studies, selections comprising all grades, sonatinas, sonatas, and concertos. In the Vocal Department, vocalizes, solfeggios, studies in flexibility, selections ranging from the easiest grade to the most difficult. In the Orchestral Department are all exercises, studies, and selections necessary for the advancement of the pupil.

The music will be loaned at the nominal fee of one dollar per term in each department.

RULES AND REGULATIONS

All pianos are owned and controlled by the University.

1. Lessons falling on legal holidays not counted out.
2. Students late at the lesson will lose the expired time.
3. A student that fails to practice will not be retained.
4. Except in protracted sickness, lessons will not be made up.

SCHOOL OF ART

Rev. John Wier, A. M., D. D., President.

Mrs. T. W. Haught, Principal of the Department.

A Beautiful, Well-Lighted Room is appropriated as a studio.

It is the object of this department to develop in the student's mind a correct idea of form, color, and pictorial composition, and to give a thorough training in all fundamental principles of Art which will prepare the student to work independently from life and nature or to enter any of the best art schools in the country.

Painting includes oil, water colors, and pastel from life, still life, and nature.

Classes in china painting and illustration are conducted throughout the year.

Students in the Art Department are subject to the same regulations as in other departments.

In addition to the above course of study, students in the Art Department are required to do all the work in English in the regular Literary Courses before graduating.

Tuition, at least for half term, must be paid in advance. Deduction for absence from lessons in case of protracted illness.

During Commencement-week there is an exhibition of work done by students of this department.

THE GRAPHIC SYSTEM OF OBJECT DRAWING

Which was adopted, February, 1895, by the State of West Virginia for use in free schools of the State, has been arranged for teachers who desire to prepare themselves to teach this important branch in connection with their regular work at $1.50 per term.

SCHOOL OF ELOCUTION

Rev. J. Wier, A. M., D. D., President.

Iva D. McCray, Principal of Department.

The object of this department is the development of correct expression in reading, public speaking, and in the interpretation of literature, and, as a result of this training, ease and grace and naturalness in conversation and general bearing.

This work should go hand in hand with the regular literary work of the University.

REGULAR COURSE

The regular course in this department can be completed in three years. The required work for first year is as follows:

Two private lessons per week.

Two class lessons per week.

Two lessons per week in physical culture, during fall or winter term.

Lockwood's Rhetoric and Composition.

Text for class work, Cumnock's Choice Readings.

The required work for the second year is as follows:

One private lesson per week.

Two class lessons in literary and dramatic interpretation.

Two lessons per week in physical culture, during fall or winter term.

English of the regular Literary Courses.

Text for class work, Shakespeare's Julius Caesar, Macbeth, Selections from the best English and American authors.

The required work for the third year is as follows:

Two private lessons per week.

Two class lessons per week, in literary and dramatic interpretation.

Two lessons per week in physical culture, during fall or winter term.

Senior English of the regular Literary Courses.

Text for class work, Two plays from Shakespeare, and selections from the best English and American authors.

ADDITIONAL COURSES IN CLASS WORK

In addition to the regular course in elocution, classes are organized for those who wish to learn the fundamental principles of good reading and good speaking, and can not take the regular course.

In the beginning class much attention is paid to correct pronunciation, distinct articulation, naturalness of expression, and the proper use of the voice.

In the practical public speaking class, opportunity is given for debating and extemporaneous speaking. Questions of the day are discussed, helpful criticisms are given by teacher and members of the class, faults in delivery are carefully pointed out and an attempt made to correct them.

The class in literary and dramatic interpretation is open to those who desire to study the masterpieces of literature for the purpose of becoming better able to read and interpret them.

PRIVATE LESSONS

Those not wishing to take the regular course or class work may take private lessons, in which special attention is given to the particular needs of the individual student.

The requirements in English for graduation in the Department of Elocution are the same as in the regular Literary Courses.

PHYSICAL CULTURE

Classes in physical culture are formed each term for the young ladies. The work in these classes is based upon the Swedish, American, and French, or Delsarte, Systems, and consists of all those exercises which tend to strength and grace of movement. Special exercises are given to meet individual needs. Pupils' recitals are given as often as practicable.

GROUNDS OF ATHLETIC ASSOCIATION

SCHOOL OF BUSINESS

Rev. J. Wier, A. M., D. D., President.

Geo. W. Broyles, Principal.

INSTRUCTORS:

Geo. W. Broyles, Eva Ethel Broyles, Julia Alwilda Bender, D. H. Hamrick.

The School of Business is a high grade business training-school with a thorough, practical course of study indorsed by the best business men of the country. It has an experienced and efficient corps of teachers, and all the necessary appliances for imparting a thorough business education.

Two distinct courses are given—Commercial and Stenographic. These are strong courses for persons who expect to go into business either for themselves or for others. They arouse energy and self-reliance in young people, and train them in those lines which have a special and direct application to the practical affairs of life. Each of these courses covers three years' work, so that any one graduating from either of them receives the regular Seminary diploma.

Penmanship is required throughout both courses.

Persons so desiring may study Bookkeeping, Shorthand, Typewriting, or Penmanship alone, or in connection with other courses, and upon a satisfactory completion of the same will be granted a certificate for the work done.

TYPEWRITING

Typewriting is of great importance in the business world. No modern office is without one or more typewriters. This branch is under the personal supervision of competent and experienced typists, who give personal instruction to each student daily until he has thoroughly mastered proper fingering and evenness of touch. Much stress is laid upon these essential points in good writing.

PENMANSHIP

Penmanship is a universal art, yet it is remarkable how few persons can write a neat, graceful, and legible hand. Our course is a complete guide to the acquisition of a beautiful handwriting. The instructions are clear and to the point, in either Plain or Ornamental style, and if followed, improvement in the penmanship of the student is rapid.

Good penmanship is like a neat personal appearance—a letter of introduction anywhere—and our course places good handwriting within the grasp of all.

GENERAL INFORMATION

ADMISSION

The school will begin work promptly on the day announced. Classes will be formed and lessons assigned *at once*. Although students may enter at any time, they are urged to be present, if possible, the first day of the term. *This is important in the fall term,* and *especially* so for those who expect to take a regular course of study.

ENROLLMENT

The first duty of all students on arriving at school, also at the opening of each term, is to enroll at the President's office.

INDUCEMENTS TO STUDENTS

The attention of the public is invited to the following advantages of the University, all of which are not found together in any other institution in the State:

1. Location.—It leaves almost nothing to be desired. One of the most picturesque and healthful locations in the United States. Free from malaria.

2. Moral and Religious.—Particular attention is given to religious training and influence. The moral atmosphere is superior to that of other towns of the size. There are no liquor saloons, and never have been, in this county.

3. Faculty and Instruction.—The Faculty is large, and each one well qualified for his particular work. They come from several of the best colleges and universities in America. The grade is high and instruction thorough.

4. Variety of Courses.—Besides the regular classical, scientific, and literary courses, excellent facilities in music, art, business, shorthand, and elocution are offered.

5. Normal Course.—No other institution in the State offers so many advantages to public-school teachers. See body of catalogue. All departments are open to teachers.

6. All Courses Open to Both Sexes.—Young people of both sexes meet together in the classroom, and, under proper restrictions, in social life; yet a careful oversight is maintained of all associations of students with those of the opposite sex.

7. Standing.—The institution already has a recognized *high standard and reputation,* and has taken its place among the best schools in the Middle States. The Music, Business, Elocution and Art Departments deserve special mention.

8. The Ladies' Hall furnishes a first-class home for young ladies, with refined Christian influences and careful attention to their wants.

SELECTION OF STUDIES

New students are required to consult the Faculty concerning their studies. It is usually the best policy for students to enter upon a regular course of study, even if they are not sure they can remain to complete it. Changes in a course once selected may be made for reasons satisfactory to the Faculty. Students are warned against undertaking too much work. Every student is permitted to take all the studies he can carry. A student rarely, if ever, regrets having entered one of the regular courses, but many regret the opposite. Students will not be held back, but will be allowed to complete a course as rapidly as they may be able.

EXAMINATIONS

The examinations are made sufficiently rigid to test the student's acquaintance with the subjects. A final grade of seventy on the basis of one hundred is required for advancement in each study.

The committee of visitors appointed by the Conference are invited to be present at the annual examinations.

Giving or receiving aid on examinations will be considered a serious offense, and any one so offending will be dealt with accordingly. Students completing one of the regular Seminary courses will receive a diploma. Students completing one of the College courses will receive a degree. A permanent record of all grades is kept at the office, and at the end of each term the standing of each student is reported to parent or guardian.

INDUCEMENTS TO STUDENTS.

If you are personally unknown to us, do not fail to bring a certificate of good moral character. We seek only such students as intend to be gentlemen and ladies while in the University. Please read all the regulations, etc., in the catalogue, in order that you may know precisely what is expected of you. If no one is at the train to meet you, leave your trunk at the station, and, unless you have friends in town, come to the University. There information concerning rooms, boarding, etc., can be obtained.

All students who expect to enter are requested to make their purpose known to the President in advance by letter. Lady students especially should do this, so that rooms may be reserved for them in the Ladies' Hall. They should state just when they will arrive, and they can be met by the school authorities at the station. If young ladies are not met on arrival by a representative of the Faculty, they should come at once to the Ladies' Hall.

LADIES' HALL

The Hall has proved a great blessing to the institution and to the young ladies of the School. It furnishes for them a first-class Christian home. Besides the supervision of the President, the Preceptress and the Matron devote their time to the welfare and guidance of the students. Seven lady members of the Faculty reside in the building. The aim is to combine the refining influence of a Christian home with educational advantages. Every effort possible is put forth to make things comfortable and attractive for the students.

TO THOSE WITH LIMITED MEANS

Many who hold the chief positions of influence were once as poor as any one can be. Education is the honorable way out of your present position. With good health, good habits, ordinary intellect, and a resolute will, nobody need be discouraged; an education is within reach. By strict economy and hard work, one can sometimes earn enough in three months to support himself in the College for six months. Can you command $40 or $50 to start with? Have you energy and perseverence? Are you willing to make sacrifices? Then come and begin at once. Better to enter, even if you can not see your way through. Usually when a student is in earnest, some way whereby he can remain in school will open. We do all we can to put students in the way of helping themselves, in order that they may be able to remain in school. Young men preparing for the ministry will find it to their advantage to correspond with the President. Also other students seeking employment as a means to provide expenses.

LOANS

The University receives each year a limited amount of money from the Board of Education to be loaned to needy

students. This money is not given to the student, but simply loaned to him until he can pay it back. It begins to draw interest soon after he leaves school. The Board shows preference to those students who expect to enter the ministry.

A few special scholarships have been established. They consist of a loan fund of $25 each. During the past year several persons have given toward scholarships which bear their names. Reports are regularly made to the donor. It is earnestly hoped that other benevolent persons will establish one or more of these scholarships. Many persons could not give $25 at once, but they could give a small sum each year, and these amounts would soon reach the desired sum. The Epworth Leagues could take up no better work than this. Young people are constantly asking if they can in any manner work their way through the College. There are scores of worthy young people of both sexes, some of them persons of great promise of future success in life, who are anxious to attend school, but have not the means. Many of our students are compelled to remain out of school about half the year to earn money. Any gifts for this purpose will be promptly acknowledged, and used to the best advantage.

A WORD TO PARENTS

Parents should not allow their children to be absent while school is in session, for the purpose of visiting, either at home or elsewhere. All such absence injures the standing of the student often, and embarrasses the management. Students who live near Buckhannon are warned against this very common mistake. They should *in no case visit home every week.*

Outside of the regular expense for tuition, board, laundry, books, and stationery, there is little need of

pocket money. This is a matter of vital importance. Students are often injured by being too fully supplied with money. Parents will do their children a kindness by *requiring an itemized account* of all expenses. Money may be left in charge of the Faculty, if desirable. Plainness in dress is encouraged. Parents and guardians should write directly and freely to the President on all matters pertaining to students. The Preceptress desires the fullest correspondence respecting the lady students.

We shall esteem it a favor to have you write us freely concerning your children, especially if they have cause for complaint or are dissatisfied. We want to know the reason. We expect your earnest support and faithful co-operation in securing the best discipline.

Our purpose is to make the moral and religious life of the school such that parents may feel that their sons and daughters will be safe under its influence. Parents should carefully consider the moral and religious conditions in selecting a school for their children. Young people should be brought under the best influences during the formative years of their education. At no other time in life are these conditions so important. To develop Christian character, and not simply to impart secular learning, is the true end of education.

LITERARY SOCIETIES

There are two flourishing literary societies in connection with the institution—the Chrestomathean and Excelsior. These societies have nicely carpeted and furnished halls, with pianos, in the University buildings. The societies are a great attraction to students, and all are invited to join.

LIBRARY AND READING-ROOM

A good beginning for a library has been made. At present there are over four thousand volumes, embracing

considerable variety in the different departments of literature. The books have been catalogued after the most approved system. Students are given free use of the library. Many standard works are yet needed, besides most of the more recent publications in all departments of literature. A large number of books have been added the past year. *Friends of the institution are cordially invited to send books or money to the library.* We also earnestly solicit from our friends specimens of all kinds suitable for the museum and cabinets. If you have any geological or other specimens, remember the College.

ACKNOWLEDGMENTS

We have received books for the library from several persons. We hope our friends will continue to remember us, and help us to secure a good working library. Mr. C. D. Howard continues his splendid interest in the Loan Fund. Many publishers have sent free copies of their papers to the reading-room. All such will please accept our thanks. We hope they will continue to remember us. Special gratitude is due to Miss Adelaide R. Tompkins, of Pittston, Pa., through whose interest and influence our library rooms have been newly furnished and many volumes added to the shelves. Ex-Gov. Atkinson's gift of histories is very timely. Also to Mrs. John A. Barnes, of Weston, W. Va., for additions to the furniture of the Ladies' Hall. Dr. D. K. Pearsons, of Chicago, has most generously given $25,000 to the Endowment Fund. This fund, through the generosity of a multitude of friends, has been increased to $100,000.

TEXT-BOOKS

All necessary text-books can be obtained at the University. Students should bring with them whatever books they now have; in many cases they will answer here.

Following is a partial list of text-books used:

Harvey's Reed and Kellogg's Grammars; Lockwood's English (Rhetoric), Hart's Rhetoric, Reed's Word Lessons, Painter's English Literature, Painter's American Literature, Mitchell's Intermediate Geography, Le Conte's Compend of Geology, Todd's New Astronomy, Williams's Elements of Chemistry, Gage's Physics, Ray's Arithmetic and Elementary Algebra, Milne's Arithmetic, Wentworth's School Algebra, College Algebra, Geometry and Trigonometry, Gray's Botany, Whitney's French Grammar, Grandgent's French Composition, Joynes-Meissner's German Grammar, Harris's German Composition, Collar and Daniell's Beginner's Latin, Greenough's Virgil, Kelsey's Caesar and Cicero, Greenough's Latin Grammar, White's Beginner's Greek, Goodwin's Greek Grammar, Harper and Wallace's Anabasis, Perrin's Iliad, Halleck's Psychology, Willoughby's Civil Government, Meyer's General History, Montgomery's United States History, Montgomery's History of England, White's Pedagogy and School Management, Painter's History of Education.

WHAT THE COLLEGE NEEDS

What the College needs is large gifts and bequests from those who have means.

Already we have an attendance reaching into the hundreds. Our very success creates new needs. Here are the conditions and surroundings necessary for building up a great institution of learning. We are facing a great opportunity now in West Virginia. A *Christian* college is greatly needed in the heart of the State. Here is the location, the spirit, the opportunity. Already some have given, and others are seriously considering the subject. This is God's work, and should have a generous share of the riches of his people. There are twenty men in the

State who could give $5,000 each, and *be the richer by doing it.* Some could give more. Some of these men want to do good with their money, and might be brought to see that *the University furnishes the best opportunity for doing it.* Will you act now, while you have life and opportunity?

ANNUITY PLAN

Attention is called very particularly to the "Annuity Plan" of the University. Persons are interested in this "Plan" as a very suitable, profitable and safe way to invest money or to convey property.

The "Plan" is to receive money from individuals and to pay them an annual interest thereon during life, on condition that at death the money thus held remain with the University.

Suppose a person has $500, $1,000, $5,000, $10,000, or any sum large or small. He needs the interest of his money during the remainder of his life. At the end of his life he desires the principal to go to some worthy cause. By transferring this money to the University the trustees will give him an Annuity Bond legally executed and yielding a life-long income at the rate of FIVE PER CENT. At his death interest ceases and the money remains with the College. The investment is secured during his life by a school property and endowment valued at a quarter of a million dollars. Behind these stand a strong board of trustees and the great Methodist Episcopal Church.

Or suppose a person has property. The College is prepared to accept such property and pay the donor the net income of the same during life. Or the property may be converted into cash, and the Annuity Bond at five per cent. given.

Please note carefully the advantages of this Plan:

FIRST: No tax whatever is assessed upon the money invested. None but United States Government Bonds are thus exempt from tax, and the interest on these bonds is

much less than our Annuities. Educational monies are entirely free from taxation and the whole net income therefrom can be paid to the holders of our University Annuity Bonds. Thus a five per cent University Annuity is equivalent to a gross income of seven to ten per cent on an ordinary loan or investment. The latter is subject to taxation, and in addition to fees, commissions, occasional losses, and temporary cessation of income at expiration or before reloaning. Investments in business or real estate involve repairs, insurance, incidental or operating expenses, fluctuations of value and depreciations from ordinary wear.

Second: The University Annuity Plan exempts the donor from fees and allowances for executors and administrators.

Third: The Plan Relieves the Donor From All Care and Anxiety About the Money or Property.

Loans often become scattered and the interest remains unpaid. The guarantee of loans may be uncertain through imperfect title deed or otherwise. Especially is this true where persons have no opportunity to become acquainted with the credit of the borrower. It requires an expert to loan money judiciously. All history goes to confirm the remark of an eminent financier that it requires more wisdom and experience to invest money so as to secure a reasonable return and preserve the principal intact than was originally required in the making of the money.

The Trustees of the College give a Bond perfectly secured, guaranteeing the annual payment of the interest and removing all occasion of unrest or doubt as to this interest. Especially in the declining years of life is this a boon.

Fourth: The University Annuity Plan enables the

donor to become the executor of his own estate during his life-time.

At the death of the annuitant his money goes to the University as part of the general endowment or for any special purpose as may be agreed.

ANOTHER PLAN

It may be that a person is actively engaged in business so that he cannot withdraw his money or any portion of it from his working capital. He may, however, contemplate doing something for the University IN HIS WILL.

The President will be pleased to confer with any such person and to give information and direction as may be required. The attention of those who desire to make benevolent use of their property, is called to the following form of bequest:

1. I give and devise to "THE BOARD OF TRUSTEES OF THE WESLEYAN UNIVERSITY OF WEST VIRGINIA," and its successors and assigns forever, the following lands and premises, that is to say:

11. I give and bequeath to "THE BOARD OF TRUSTEES OF THE WESLEYAN UNIVERSITY OF WEST VIRGINIA" the sum of.....dollars, to be paid by my executors out of my estate within.....months after my decease, and to be appropriated by the Trustees of said institution, in such manner as they think best.
